Dear Tan:

A heartfelt thank you from all of us at the Refugee Project and from the hundreds of new Americans who will benefit from on-going training and job placement services -- made possible through your efforts.

Dependent on government funding as we are, it was necessary to obtain more resources in order to continue to provide services to the ever-growing numbers who are striving to make new homes and build new lives here. Your support made Congress aware of our growing needs. The letters and petitions you so generously wrote and circulated did make a difference!

It is truly a pleasure to associate with caring individuals like yourself. Please accept this thanksgiving note with our warmest wishes for happiness and success this holiday season.

Sincerely,

Cathy Nagel
Counselor
