Dear Mr. Tan:

Thank for you letter in support of AB 3254 (Areias), which would provide continuity in employment and education classes to newly arrived refugees.

With my strong support, AB 3254 passed unanimously out of the Assembly and Senate, and is currently pending the Governor's signature.

I believe this bill is a necessary step in a refugee's transition into California. By providing English language classes, job training, and employment services, we can provide these individuals with an opportunity to enter the work force and become an integral part of our society.

Again, thank you for writing, and please continue to let me know whenever issues of importance to you are pending before the Legislature.

Sincerely,

A handwritten signature in blue ink that reads "Mike Roos".
